We are an independent company where our motto is the added value to your business, no matter who is the supplier we assure you the best quality at the lowest price

# Maintenance & Overhaul

Whether it is routine maintenance or replacement parts, we will keep you running with efficient servicing and repairs.

We support operators and owners with comprehensive engineering and planning solutions, fully complied with OEM and regulatory requirements as well as recommendations.

We secure a highly experienced technical staff, to provide complete MRO support at their own facilities or at a customer's base

# Replacement Parts

We are partner with the leading companies in the supply and the overhaul of the Marine spare parts and equipment  
We provide complete electrical distribution and control solutions for Military, Commercial, and Industrial applications. From electrical switchboards to Gas Turbine Engine Control Systems, Retractable Train Bridge Catenary Controls, Fuel Handling Systems, Navy Simulators, Industrial Cranes, and intelligent ports

# OBSOLESCENCE

A little over a thousand electronic parts go obsolete daily. In the event of obsolescence, part demand drastically increases and market availability becomes limited; meanwhile, companies scramble to either find a replacement part or make a last time buy. It is vital to have one resourcing partner, One stop, one order, one pre and after sale coordinator

Despite the concept of 'built-in obsolescence,' where parts were simply not made to last, there are many circumstances where equipment is still perfectly capable of functioning if an obsolete part can be replaced. This is where Milipol Equipment comes in . . .

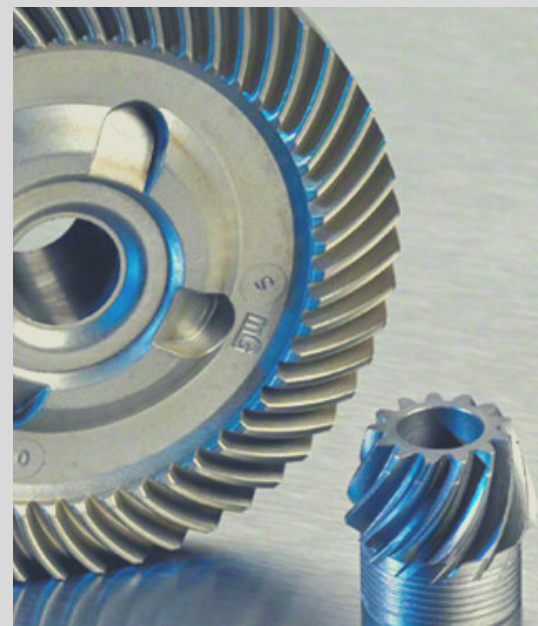

# OBSOLESCENCE

...This is where MilipolQa comes in

We know where to find even the most obscure items. Plus, we have a international network of manufacturers, brokers and suppliers who can always help us find what you need.

We support you with all spares you need even by reengineering and we help you to solve your obsolescence issues

# Innovate With Our Technology Partners

Through our Partners' best in breed technology, we solve your unique, global business needs—whether you're a small to medium or enterprise business. Our partner technologies will provide you with the technology and functionality you need to enhance your business. Technology Partners can help you develop and optimize in many ways
